

| Title                      | Name               | Specialty Field                                                          | E-mail        |
|----------------------------|--------------------|--------------------------------------------------------------------------|---------------|
| Professor                  | KONDO Masao        | Mathematical Statistics, Time Series Analysis                            | kondo@sci.    |
|                            | YOKURA Shoji       | Topology                                                                 | yokura@sci.   |
|                            | AIKOU Tadashi      | Differential Geometry                                                    | aikou@sci.    |
|                            | TANEICHI Nobuhiro  | Mathematical Statistics, Discrete Multivariate Analysis                  | taneichi@sci. |
|                            | SHINMORI Shuichi   | Computer Science, Network Theory                                         | shinmori@sci. |
| Associate Professor        | OBITSU Kunio       | Function Theory                                                          | obitsu@sci.   |
|                            | FURUSAWA Hitoshi   | Computer Science                                                         | furusawa@sci. |
|                            | ITOH Minoru        | Representation Theory                                                    | itoh@sci.     |
|                            | AOKI Satoshi       | Mathematical Statistics                                                  | aoki@sci.     |
|                            | MURAKAMI Masaaki   | Complex Algebraic Geometry                                               | murakami@sci  |
|                            | MATSUMOTO Sho      | Probability Theory                                                       | shom@sci      |
|                            | NAKAOKA Hiroyuki   | Category Theory                                                          | nakaoka@sci.  |
| Senior Assistant Professor | AOYAMA Kiwamu      | Mathematical Logic (Proof Theory)                                        | Q_chan@sci.   |
| Assistant Professor        | NISHIDA Kotoba     | Numerical Analysis (Partial Differential Equation)                       | kotoba@sci.   |
|                            | TANAKA Erico       | Finsler/Kawaguchi Geometry And Their Applications To Theoretical Physics | erico@sci     |
|                            | YOSHIDA Takuma     | Statistics                                                               | yoshida@sci.  |
|                            | MATSUMURA Shinichi | Complex Geometry                                                         | shinichi@sci. |
